I am getting really tired of things like this happening!!!! It started when I had satellite dish reception and they said I had to wait and check to see if I could get local reception from Springfield before I could get ABC, CBS, NBC, and FOX on satellite. What the hell ever happened to freedom of choice in this GOD DAMNED COUNTRY??? It seems like it is happening again here. If the AM Stations can not compete with XM, maybe they need to find something else better to do in life! I heard a commercial on AM that was putting down XM. They said it would be bad for their children to hear the bad language. THEN BLOCK THAT CHANNEL MORON!!! Very easy to do!!! They said many subscribers leave XM. Why would they do that? Look what XM has to offer and then look what they would be going back to!!! I am a truck driver and DEPEND on XM to get me through the day. I have it on 12-15 hours a day. Thanks! Arnold McGee
